

# ONE FATHER LOSES PLEA FOR CHILD; OTHER IS VICTOR

Dr. Adorjan Denied Care of  
Daughter—Ullman to Have  
Baby's Custody on Sundays.

Two habeas corpus proceedings involving the custody of children were heard to-day by Justice Gavegan in the Bronx Supreme Court. Dr. Bernard Adorjan, a dentist, sought to obtain the exclusive custody of his four-year-old daughter Gertrude, claiming that his wife Hattie of No. 809 Freeman Street, the keeper of a tea room in Prospect Avenue, often had the child at that place and that he did not believe it to be to the little girl's best interests. The Adorjans were married in September, 1917, and separated last August.

James M. Bennett, representing Mrs. Adorjan, stated that she was Hunter's College graduate, that the tea room was an entirely respectable place and that the child was receiving every care. The court refused the father's application.

Harry Ullman, a hardware dealer of No. 603 West 17th Street, asked the court for the custody of his two-year-old daughter Naomi on Sundays from 1 o'clock in the morning until six. He said he had been unable to make any satisfactory arrangement with his wife Rose, teacher in a public school. Mrs. Ullman opposed the application, but the court granted it, admonishing Mrs. Ullman that if she did not submit to the ruling something more serious might happen. The Ullmans were married in March, 1918, and separated last September.

## MRS. STOKES TO PLEAD FOR ALIMONY TO HORROW

Millionaire's Wife Expected to Ask  
Separation and Alimony.

A motion by Mrs. Helen Edwood Stokes for a liberal alimony under the decree of separation granted her last year from W. E. D. Stokes, millionaire owner of the Ansonia Hotel, will be heard to-morrow before Justice Edward R. Finch in Supreme Court. The argument was scheduled for to-day, but postponed because Mrs. Stokes's counsel was engaged in another part of the court.

It is expected that Mr. Stokes also will motion to reopen the separation suit at the same time. During the recent suit by Mrs. Stokes to restore her dower right, which has not yet been decided by Justice Cahalan, counsel said this move soon would be made.

## STALLED LAUNCH ENGINE IMPERILS YALE MEN

Motor Boat Reaches the Binge Only  
100 Feet Above Dam.

DERBY, Conn., May 8.—The Yale launch Binge, with Coach Cordery and four students aboard, was saved from a plunge over the Housatonic River dam late yesterday.

The Binge's engine stalled 300 yards from the dam. The wind carried the boat downstream. Three of the students jumped into the river and tried to check the boat. Michael Young reached them when the Binge was only 100 feet from the top of the 30-foot dam.

### Woodland Wonder Tales By Cousin Eleanor

"A FRIENDLY CALL."

Down they went—Pad, Frog and Mo Brighteyes!

Early morning found Mo Brighteyes on the shores of the bog. He had stolen away from his daddy, Billy Brighteyes and his sisters, Eena, Meena and Mina before breakfast was over and had gone to visit his favorite singer, the Frog-in-the-Bog.

Instead of taking the path through the Green Woodland he had followed the Babbling Brook, stopping now and again to drink the shining water. Mo Brighteyes liked the rippling water of the Babbling Brook better than the stiller water of the Bog. The Bog was very pretty. It was like a mirror reflecting the yellow cowslips and the big green Frog-in-the-Bog as he sat on a lily pad, in the centre looking as regal as a King.

The Frog-in-the-Bog was not singing, neither were any of the other little ripples now and then when a

urday's will be of the Frog-in-the-Bog. And on each Saturday after that there will be a cut-out of one of the characters of the Woodland Wonder Tales, doing some stunt that is typical of him, just as eating peanuts is typical of Billy Brighteyes.

Every Kiddie Klub Cousin will want the set, I know, so I have arranged to have them printed on glossy white paper and they will be mailed to our readers on receipt of 5 cents for each cut-out.

Also the pages of "Around the World and What Alice Found," printed in this manner, can be obtained in the same way.

The pictures and type are clearer and the paper strong enough to be bound in book form.

Printed on white paper, the cut-outs can be colored, they are prettier

and more practical than newspaper printing makes them; also they are larger than they appear in the Korner.

The Kiddies who wish to have stories or cut-outs mailed them should send their orders early, because the demand grows greater each day and we have only a limited number to sell. Your orders, kiddies, will be attended to as soon as possible and in the order in which they have been received. Yours loyally,

COUSIN ELEANOR.

The Queen of the Flowers.

Once upon a time there was a little girl called Etta. She and her mother lived alone in a little log cabin. Etta's mother was very poor, and they did not have much to eat.

One day, while her mother was out, Etta went out into the woods to pick flowers to sell in the village. When she had three bunches picked she saw a little fairy standing before her.

"Who are you and what are you doing here?" asked the fairy.

"My name is Etta, and I am picking flowers to sell in town so that mother and I will not starve," answered Etta.

"I am the Queen of the Flowers," said the fairy, "and if you do not pick any more of them I will give you enough means for your mother and you to live comfortably and happily."

Etta promised not to pick any more flowers, which looked so much prettier growing in their native fields and the fairy vanished. Then Etta ran home to tell her mother of their good fortune.

## CITY RESUMES FIGHT FOR CHEAPER TELEPHONES

Expert Wray Shows How Necessary Expenses Have Decreased.

ALBANY, May 8.—The hearing of the complaint of the City of New York against rates charged by the New York

Telephone Company in that city was continued before the Public Service Commission yesterday.

James G. Wray, the city's expert, supplemented his previous testimony, which was intended to show a downward trend in operating expenses, including the prices of labor and materials.

The witness presented tables in which he estimated that the total abnormal operating expenses, including depreciation charges, in the city were \$5,106,794 in 1920, and \$7,404,892 for 1921.

## Think of Your Child's Foot Health!

IF YOU want your child to have strong, sturdy, trouble-free feet—be careful of the shoes you buy! Blyn-Plan shoes for children are scientifically made to help the feet grow properly. That is why doctors recommend them. And with the child out doors so much this fine weather, he or she is particularly hard on shoes. You'll be surprised at the long service a child gets from these Blyn shoes. Because Blyn sells more shoes than any other store in New York—you pay less for each pair. Bring in the children to-day.

## K EEN ADVERTISERS often base their judgment of mediums on the ups and downs of their lineage "graphs."

Perhaps, after all, it is the desire of an advertiser to be associated with success that prompts him to place his copy in the newspaper on the up-grade.

In the matter of National Advertising during the first third of 1922, both THE WORLD and THE EVENING WORLD scored decisive gains.

The figures in agate lines for the four months follow:

NATIONAL ADVERTISING				
January:	1921	1922	Gain	
The World	144,484	176,272	31,788	
The Evening World	91,994	121,454	29,460	
February:				
The World	92,412	152,328	59,916	
The Evening World	74,758	128,020	53,262	
March:				
The World	126,224	187,566	61,342	
The Evening World	98,284	166,068	67,784	
April:				
The World	124,260	195,050	70,790	
The Evening World	97,254	129,566	32,312	

An aggregate gain of more than 400,000 lines in both papers in four months indicates pretty clearly the trend of national advertising when it comes to adequate representation in the New York field.

## You and Three Others May Pay the Price

Your dentist will tell you that four people out of every five past the age of forty have Pyorrhea. And thousands of younger persons are victims of this dangerous enemy.

Are your gums sore or tender? Do they bleed when you brush your teeth?

If so, go to your dentist at once and start using Forhan's For the Gums immediately.

For bleeding gums are an early symptom of Pyorrhea which quickly loosens the teeth, until they drop out or must be pulled, and causes poisonous pus pockets to which scientists trace many serious ailments.

You can prevent Pyorrhea, or arrest its course, by the consistent use of Forhan's For the Gums in sufficient time.

Brush your teeth with Forhan's twice a day or oftener. It will keep your teeth and gums in a healthy condition.

Remember—four out of five are caught by Pyorrhea because they are neglectful. Start using Forhan's For the Gums today. 35c and 60c tubes at your druggist's.
